**ATTENTION:** Escape the city and live your dream lifestyle on this sprawling 10-acre (more or less) property nestled between Auckland and Hamilton.

Next door to an established Golf Course, this Area is protected by the Waikato Council District Plan from sub-division, due to the free draining fertile soil type, and the Council's desire to keep this land for Farming and Agriculture.

If you have plans for any Horticulture venture this property is worth an inspection. Also due to the free draining aspect it is very suitable for an Equine Establishment with a close Neighbor doing just that. Both ventures would benefit from an established windbreak on 3 sides of the land.
